

Standing Together

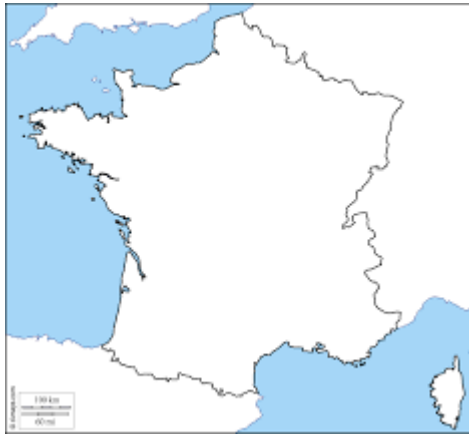

Where on Earth?

There are Christian churches *standing together* with their communities in all parts of the world. At the first Pentecost, the followers of Jesus, when filled with the Holy Spirit, began talking in lots of different languages – the whole world can praise God! The next few pages show you different countries from around the world. Can you tell from the photographs, maps and languages (all saying, ‘**Let everything that has breath praise the Lord!**’) which country they are from? Use a world map to help you with this.

The answers are on the last page of this resource. Have fun!
